

# The Owl Manor

'New and Exclusive'

## Working to support landowners with Nest Boxes for Barn Owls

September 2010 saw the launch of our newly designed Owl Box, appropriately named 'The Owl Manor'.

A design that has been constructed by our own conservation team. Once positioned the Owl Manor will offer so much more to Barn Owls and their supportive landowners. With the design being attractive to Barn Owls, it will enable better monitoring of the species whilst working on the farm.

Its robust design and looks separate it from any other Barn Owl Box on the market.

## With no tree required, the Owl Manor can easily be positioned at any location on the farm

Our unique design will work to improve nest results for Barn Owls, whilst we feel confident that Jackdaws and Squirrels will be deterred from taking over their Manor.

The design provides a family of Barn Owls a much more spacious place to live, this will allow young Owlets to exercise more freely whilst they are safely growing up.

With your help the Owl Manor will help complement any field margin and grassland area, whilst it provides the security Barn Owls need in our English Countryside.

It's built to last and designed to handle the harshest of all weather conditions.

**£ POA - All enquiries call: 01452 383999 - Includes site visit, installation & warranty**

Smaller Barn Owl Boxes are also available plus other exclusive designs for Little Owls, Kestrels & Bats
